

QObject

QGraphicsLineItem

mapcontrol::TrailLineItem

```
classDiagram
    class QObject
    class QGraphicsLineItem
    class mapcontrol_TrailLineItem["mapcontrol::TrailLineItem"]
    QObject <|-- mapcontrol_TrailLineItem
    QGraphicsLineItem <|-- mapcontrol_TrailLineItem
```

The diagram illustrates a class hierarchy. At the top, two boxes represent the base classes: 'QObject' on the left and 'QGraphicsLineItem' on the right. Below these, a third box represents the derived class: 'mapcontrol::TrailLineItem'. Two arrows point from the 'mapcontrol::TrailLineItem' box upwards to the 'QObject' and 'QGraphicsLineItem' boxes, indicating that 'mapcontrol::TrailLineItem' inherits from both.
