

QObject

QGraphicsLineItem

mapcontrol::WayPointLine

```
classDiagram
    class QObject
    class QGraphicsLineItem
    class mapcontrol_WayPointLine["mapcontrol::WayPointLine"]
    QObject <|-- mapcontrol_WayPointLine
    QGraphicsLineItem <|-- mapcontrol_WayPointLine
```

The diagram illustrates the class hierarchy for `mapcontrol::WayPointLine`. It is a class that inherits from both `QObject` and `QGraphicsLineItem`. The inheritance is represented by arrows pointing from the `mapcontrol::WayPointLine` box to the `QObject` and `QGraphicsLineItem` boxes.
